Overview

MCA student (pursuing) with hands-on experience in .NET technologies, including ASP.NET MVC, C#, and SQL. Skilled in building responsive web applications using JavaScript, Bootstrap, and Entity Framework. Possesses working knowledge of API development and integration (RESTful services). Focused on continuous learning and delivering efficient, high-quality software solutions.

SKILLS

Programming Languages: C#

Web Development: ASP.NET MVC (Core & .NET Framework), Web API (.NET Core)

Frameworks: .NET Core, .NET Framework, ADO.NET, Entity Framework Core

Database: MS SQL Server

Tools: Swagger, Visual Studio, Visual Studio Code

Design Patterns: Repository Pattern

Communication Skills: Adaptability and Continuous Learning

EDUCATION

Master of Computer Applications - MCA (pursuing), 2025 – 2027
Godavari Institute Of Management & Research, Jalgaon
CGPA-8.85

Bachelor of Computer Applications-(BCA), 2022 – 2025
S.P.D.M. Arts, S. B. B. &S.H.D. Commerce &S.M.A. Science College
CGPA-9.19 Over All

PROJECTS

SmartStationery (Inventory & Sales Management System)

Technologies used: ASP.NET Core Web API, C#, Entity Framework Core, SQL Server, LINQ, JWT Authentication, FluentValidation, REST API, React, Axios.

- Built a full-stack stationery management system to handle inventory, sales, purchases, returns, and daily business operations.
- Enabled multi-user access (admin & staff) with secure authentication and role-based workflows for real-world shop management.
- Implemented secure authentication and authorization using ASP.NET Identity and JWT tokens.
- Applied clean architecture with Repository Pattern, and centralized error handling.
- Developed RESTful APIs for stock tracking, billing operations, expense management, and reporting dashboards..
- Developed responsive frontend with centralized API integration and efficient state management.

E-Commerce Bookstore Application, *Academic Projects*

Technologies Used: ASP.NET Core Web API, C#, ASP.NET Web Applications, JavaScript, jQuery, AJAX, MS SQL Server, Entity Framework Core, ADO.NET, Swagger.

- Developed an e-commerce platform with user authentication, cart management, and order processing.
- Implemented CRUD operations and optimized database design for efficient data handling.
- Integrated payment gateway and ensured secure API communication using validation and error handling.
